## Section 1. Identification of the substance/mixture and of the company/undertaking

| 1.1. Product identifier                                      |  |
|--|--|
| Product Identity   | Katie EU   |
| Alternate Names  | Katie EU   |
| Unique Formula Identifier                                    |  |
| 1.2. Relevant identified uses of the substance or mi         | xture and uses advised against   |
| Intended use   | Pigment dispersion produced for exclusive use for<br>permanent tattoos applications. The product should<br>NOT be used in the eye. Product for professional use<br>in accordance with Regulation 1907/2006 Annex XVII<br>of the European Parliament and the Council concerning<br>the Registration, Evaluation, Authorization and<br>Restriction of Chemicals (REACH). |
| <b>1.3.</b> Details of the supplier of the safety data sheet |  |
| INTENZE Droducto Inc. 7445 Door Mont                         | n Drive Suite 107  |

INTENZE Products, Inc. 7445 Dean Martin Drive, Suite 107 Las Vegas, NV 89139

Customer Service: 1.4. Emergency telephone number +77007555719 1.5. Emergency 24 hour Emergency Telephone No. +77007555719

#### Section 2. Hazard identification of the product

2.1. Classification of the substance or mixture Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS] No applicable CLP categories.
2.2. Label elements According to REGULATION (EU) 2020/878 amending Regulations EU 2015/830 and (EC) No 1907/2006 No applicable CLP categories.

[Prevention]: No CLP prevention statements [Response]: No CLP response statements [Storage]: No CLP storage statements [Disposal]: No CLP disposal statements 2.3. Other hazards This product contains no PBT/vPvB chemicals.

#### Section 3. Composition/information on ingredients

## 3.2. Mixtures

If the product contains substances that present a hazard according to Regulation (EC) No. 1272/2008 [CLP/GHS] (as amended by (EU) 2015/830 and REGULATION (EU) 2020/878), they are listed below.

| Ingredient/Chemical Designations  | Weight %   | Classification according to<br>regulation EC No. 1272/2008* | Notes |
|---|------------|---|-------|
| Aqua<br>CAS Number: 0007732-18-5<br>EC No. 231-791-2<br>Index No.:                                      | 25 - 50    | Not Classified  |       |
| CI 77266<br>CAS Number: 0001333-86-4<br>EC No. 215-609-9<br>Index No.:                                  | 10 - 25    | Not Classified  |       |
| Hamamelis virginiana, extract<br>CAS Number: 0084696-19-5<br>EC No. 283-637-9<br>Index No.:             | 10 - 25    | Not Classified  |       |

<sup>A</sup>CLP <sup>31</sup> Reference EC No. 1272/2008 1.1.3.1. Notes relating to the identification, classification and labe ling of substances (Table 3.1).

In accordance with paragraph (i) of §1910.1200, the specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret.

\*PBT/vPvB - PBT-substance or vPvB-substance.

The ful texts of the phrases are shown in Section 16.

|  | Section 4. First aid measures |
|--|-------------------------------|
| 4.1. Description of first aid measures |                               |

| General                | In a l cases of doubt, or when symptoms persist, seek medical attention.   |
|------------------------|--|
|                        | Never give anything by mouth to an unconscious person.   |
| Inhalation             | Remove to fresh air, keep patient warm and at rest. If breathing is irregular or stopped, give artificial respiration. If unconscious, place in the recovery position and obtain immediate medical attention. Give nothing by mouth.   |
| Eye                    | Irrigate copiously with clean water for at least 15 minutes, holding the eyelids apart and seek medical attention.   |
| Skin                   | Remove contaminated clothing. Wash skin thoroughly with soap and water or use a recognized skin cleanser.  |
| Ingestion              | If swa lowed obtain immediate medical attention. Keep at rest. Do NOT induce vomiting.   |
| 4.2. Most important sy | ymptoms and effects, both acute and delayed  |
| Overview               | Treat symptomatica ly. Exposure to solvent vapor concentrations from the component solvents in excess of the stated occupational exposure limits may result in adverse health e fects such as mucous membrane and respiratory system irritation and adverse e fects on the kidneys, liver and central nervous system. Symptoms include headache, nausea, dizziness, fatigue, muscular weakness, drowsiness and in extreme cases, loss of |

consciousness.

Repeated or prolonged contact with the preparation may cause removal of natural fat from the skin resulting in dryness, initation and possible non-allergic contact dermatitis. Solvents may also be absorbed through the skin. Splashes of liquid in the eyes may cause irritation and soreness with possible reversible damage. See section 2 for further details.

## **4.3. Indication of any immediate medical attention and special treatment needed Notes to physician** Treat symptomatically.

## Section 5. Fire-fighting measures

# 5.1. Extinguishing media

Recommended extinguishing media; alcohol resistant foam, CO<sub>2</sub>, powder, water spray.

Unsuitable extinguishing media: Do not use; water jet.

#### 5.2. Special hazards arising from the substance or mixture

Hazardous decomposition: No hazardous decomposition data available.

#### 5.3. Advice for fire-fighters

As with a l fires, wear positive pressure, self-contained breathing apparatus, (SCBA) with a ful face piece and protective clothing. Persons without respiratory protection should leave area. Wear SCBA during clean-up immediately after fire. No smoking.

ERG Guide No.

#### Section 6. Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

Put on appropriate personal protective equipment (see section 8).

Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

#### 6.2. Environmental precautions

Do not a low spils to enter drains or waterways.

# 6.3. Methods and material for containment and cleaning up

Ventilate the area and avoid breathing vapors. Take the personal protective measures listed in section 8. Contain and absorb spilage with non-combustible materials e.g. sand, earth, and vermiculite. Place in closed containers outside buildings and dispose of according to the Waste Regulations.

#### 6.4 Reference to other sections

See Section 1 for emergency contact information.

See Section 8 for information on appropriate personal protective equipment.

See Section 13 for additional waste treatment information.

#### Section 7. Handling and storage

#### 7.1. Precautions for safe handling

Handle containers carefuly to prevent damage and spilage.

See section 2 for further details. - [Prevention]:

# 7.2. Conditions for safe storage, including any incompatibilities

Keep containers tightly closed. Store containers in a cool, ventilated, dry area away from direct sunlight, heat sources, strong oxidizing agents, and electrostatic charges. Containers should be stored between 4 - 25 °C (39 - 77 °F).

Incompatible materials: No available information

See section 2 for further details. - [Storage]:

# 7.3. Specific end use(s)

No available information

## Section 8. Exposure controls / personal protection

## 8.1. Control parameters

| Exposure     |                              |          |  |  |  |  |

|              |                              | ACGIH    | No Established Limit   |  |  |  |
|              |                              | NIOSH    | No Established Limit   |  |  |  |
|              |                              | National | No Established Limit   |  |  |  |

Contains mineral oil. The exposure limits for oil mist are 5 mg/m<sup>3</sup> OSHA PEL and 10 mg/m<sup>3</sup> ACGIH.

# 8.2. Exposure controls

| Respiratory                 | If workers are exposed to concentrations above the exposure limit they must use the appropriate, certified respirators.   |
|-----------------------------|---|
| Eyes                        | Protective safety glasses recommended   |
| Skin                        | Protective gloves recommended.  |
| Engineering Controls        | Provide adequate ventilation. Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. If these are not su ficient to maintain concentrations of particulates and any vapor below occupational exposure limits suitable respiratory protection must be worn. |
| <b>Other Work Practices</b> | Use good personal hygiene practices. Wash hands before eating, drinking, smoking or   |
|                             | using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.   |
| See section 2 for further   | details - [Prevention]:   |

#### Section 10. Stability and reactivity

10.1. Reactivity
Hazardous Polymerization wil not occur.
10.2. Chemical stability
Stable under normal circumstances.
10.3. Possibility of hazardous reactions
No available information
10.4. Conditions to avoid
Avoid high temperatures and contact with incompatible material
10.5. Incompatible materials
No available information
10.6. Hazardous decomposition products
No hazardous decomposition data available.

# Section 11. Toxicological information

# 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008 Acute toxicity

Exposure to solvent vapor concentrations from the component solvents in excess of the stated occupational exposure limits may result in adverse health e fects such as mucous membrane and respiratory system irritation and adverse e fects on the kidneys, liver and central nervous system. Symptoms include headache, nausea, dizziness, fatigue, muscular weakness, drowsiness and in extreme cases, loss of consciousness.

Repeated or prolonged contact with the preparation may cause removal of natural fat from the skin resulting in dryness, irritation and possible non-a lergic contact dermatitis. Solvents may also be absorbed through the skin. Splashes of liquid in the eyes may cause irritation and soreness with possible reversible damage.

Note: When no route specific LD50 data is available for an acute toxin, the converted acute toxicity point estimate was used in the calculation of the product's ATE (Acute Toxicity Estimate).

# 12.2. Persistence and degradability

There is no data available on the preparation itself.

12.3. Bioaccumulative potential
No available information
12.4. Mobility in soil
No available information
12.5. Results of PBT and vPvB assessment

This product contains no  $\ensuremath{\mathsf{PBT/vPvB}}$  chemicals.

# 12.6 Endocrine disrupting properties

This product contains no endocrine disrupting chemicals.

# 12.7. Other adverse effects

No available information

#### Section 13. Disposal considerations

#### **13.1.** Waste treatment methods

Observe al federal, state and local regulations when disposing of this substance.
